

PENTAGON RENOVATION NOTICE

Corridor 3 Closes Permanently May 18, 1999 Use the New Bridge Entrance at Corridor 2

Corridor 3 will close permanently on Tuesday, May 18, 1999, at 8:00 P.M.. Anyone wishing to enter the Pentagon from the South Terrace must use the new bridge at Corridor 2. However, until the bridge is completed, only the staircase and elevator closest to the Pentagon and adjacent to the bus lane will be available.

The bridge's second elevator and two other staircases located closer to South Parking will open in June.

The Corridor 2 Entrance now replaces the Corridor 3 Entrance to provide 24-hour access into the Pentagon.

Directional signs will be posted to guide pedestrians and persons with disabilities safely from the South Parking Lot to the Corridor 2 Bridge staircase and elevator.

It should be noted that until the bridge's second elevator and two staircases located in the South Parking Lot are completed, persons using the bridge must still cross Rotary Road and therefore, are strongly urged to use caution. Crosswalks will be clearly marked and security officers will continue to direct traffic during the morning and afternoon rush hours.

When the bridge is completed, all persons will use the bridge to cross over Rotary Road to or from the Pentagon. In June, notices will be posted once the exact date is determined for the completion of the bridge's second elevator and staircases.

Also in June, Rotary Road will be diverted into South Parking at Corridor 3 to clear the way for construction of the Corridor 3 Bridge.

We thank you for your patience and understanding.

Presently, pedestrians can use only the South Terrace Bridge staircase located closest to the Pentagon and adjacent to the Rotary Road bus lane.

The bridge's two other staircases, located in South Parking, will be available in June.

Persons with disabilities can use the South Terrace Bridge elevator closest to the Pentagon. A second elevator, closer to South Parking, will be available in June.

This photo shows the South Terrace bridge elevator on the ground level. Presently, it is the only elevator available to persons with disabilities until the second bridge elevator is completed in June.

Note: Presently, there are NO CHANGES to the locations of the DoD bus stops.
